Dear Jack: Subject: Physical Security-

[REDACTED]

25X1A7b

I was visited today by a representative from the Office of Security whose prime interest was in the internal precautions taken or procedures set up by the Bureau for combating sabotage, local disturbances or rioting not connected with a hot war. In addition, he was interested in what local agreements, if any, the Bureau enjoys with the military for this kind of protection.

Therefore, I will appreciate it if you will briefly summarize the information and supply us with copies of any existing directives or agreements.

Sincerely,

25X1A9a
